Faouzi Kamoun is Professor and Director of the Research, Development & Innovation (RDI) Office at ESPRIT School of Engineering, Tunisia. He holds a PhD degree in Electrical & Computer Engineering from Concordia University and an MBA in Management from McGill University, Canada. He started his professional career in 1995, as senior systems engineer/technical advisor at Nortel Networks. He moved to the UAE in 2002, where he held various academic and administrative positions, including Dean of the College of IT at the University of Dubai (2009-2012) and Acting and Associate Dean of the College of Technological Innovation at Zayed University (2014-2015). Since 2015, he has been with ESPRIT School of Engineering Tunisia where he leads many funded RDI projects on smart-cities, social innovation, technology management, networking, and cybersecurity. He also teaches senior courses related to Wireless Sensor Networks, Networking, Operations Research, and IoT.

Dr Kamoun was the recipient of many awards, including an IBM Research Award (2008) and the University of Dubai best faculty award (2004). During the period 2012-2014, he was the founder and Director of the Intelligent Remote Sensing and Tracking Lab at Zayed University.

Dr Kamoun is a member of the editorial board of many international journals, including the International Journal on Advances in Intelligent Systems, the International Arab Journal of e-Technology (IAJeT), the Aceh International Journal of Science & Technology (AIJST) and the International Journal of Security in Computer Networks and Distributed Systems (IJSCNDS). He has published more than 70 scientific papers in International journals and conference proceedings.
